

Nick Millington

Route Director for Wales and Borders

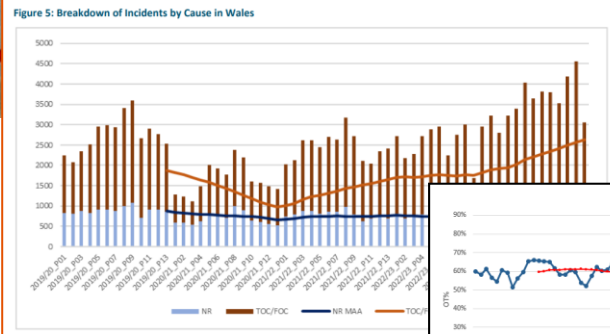

Control Period 6 – A recap.

On 3 July 2019, at 09:52 the driver of a Great Western Railway train reported that the train had struck three people working on the South Wales Main Line track.

Our colleagues **Gareth Delbridge** and **Michael 'Spike' Lewis** were fatally injured. Another colleague escaped by inches.

Control Period 7 (CP7) – Wales and Borders

- Safety of our people, infrastructure and our operations is our priority
- We must deliver a reliable timetable.

- Operate and Maintain = £700m
- Renew = £1Bn
- Enhance = ???
- More Efficient, Freight Growth (6.9%)
- Service Affecting Failures.....
- Etc....

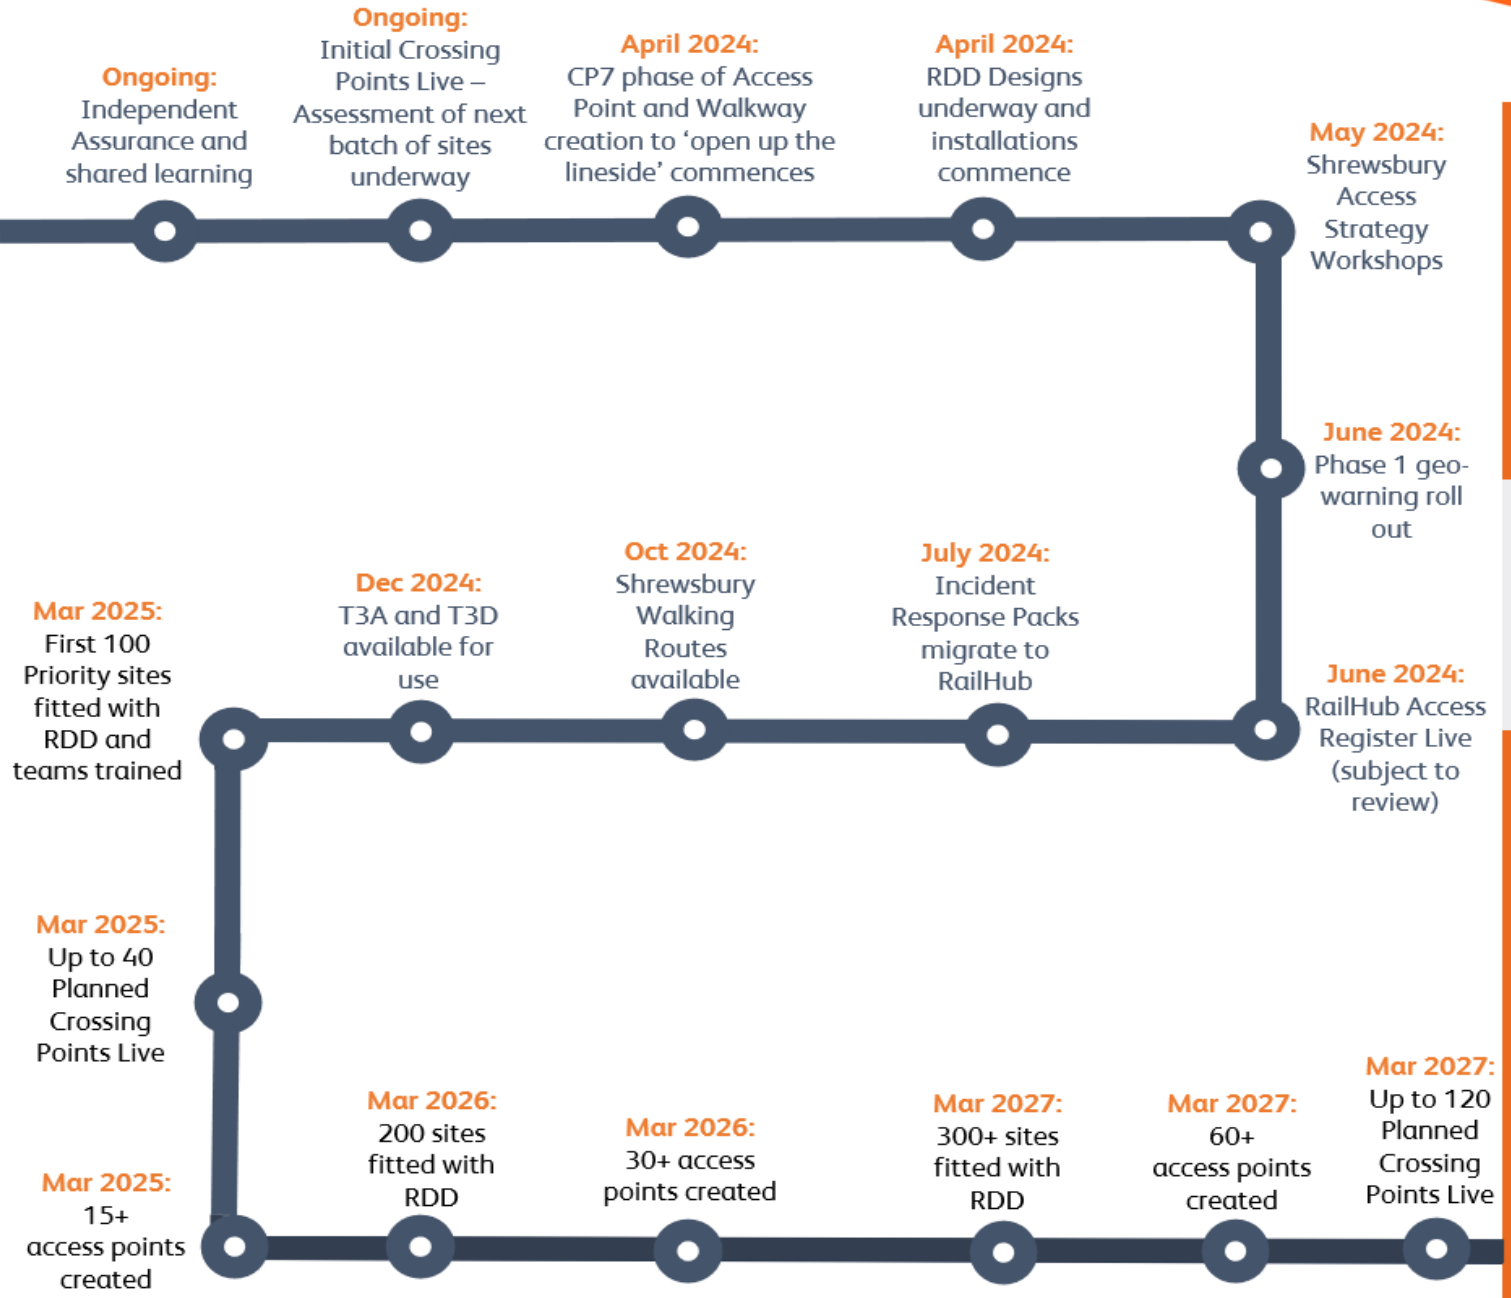

“A safe and reliable ‘Low Carbon’ transport service, integrated seamlessly with other modes.....”

Wales and Borders CP7 SEW Roadmap

What's next?

- Focus on easier walking** 
- Geo-warning roll out** 
- RDD roll out** 
- Smarter access** 
- Crossing Point extended rollout** 
- Assurance** 
- Safer Possession Management** 

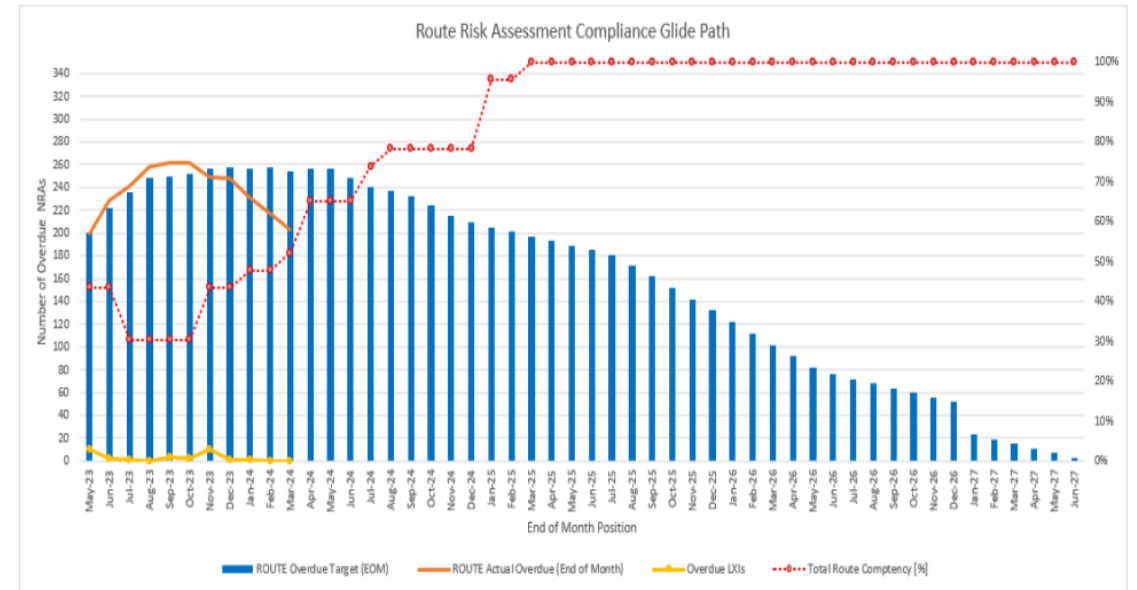

everyone home safe every day

Level Crossings – over 1000.

Improving train service punctuality: Our 7Rs

Research: Improved understanding of what causes delay, including better attribution.

Repetition: meaningful targets we all understand to deliver a robust timetable - trains on time.

Risk: Prepare for the seasons in advance; avoid repeated infrastructure failures; proactively manage risk

Reliability: Make sure our assets our major station hubs work well
- Cardiff, Newport, Chester and Shrewsbury.

Resilience: Increase the route's resilience to adverse weather, extreme weather and external factors.

Restrictions: Management and removal of all temporary speed restrictions on the route. when a TSR is implemented, a robust plan is created to remove.

Resource: provide our teams with the right resource to delivery great performance effectively and efficiently.

Resilience

- Removing 40,000 Diseased Trees – **Underway**
- More sophisticated Weather Forecasting + Agile operational risk control – **Done.**
- Revisited all Earthworks risk assessments – **Done.**
- Flood Task Force – **Underway.**
- Infrastructure Resilience Programme – **Planned and underway.**

How are we improving performance

Vegetation management

Removing temporary speed restrictions

Project Dragon

Work on the Severn Tunnel

How we measure performance:

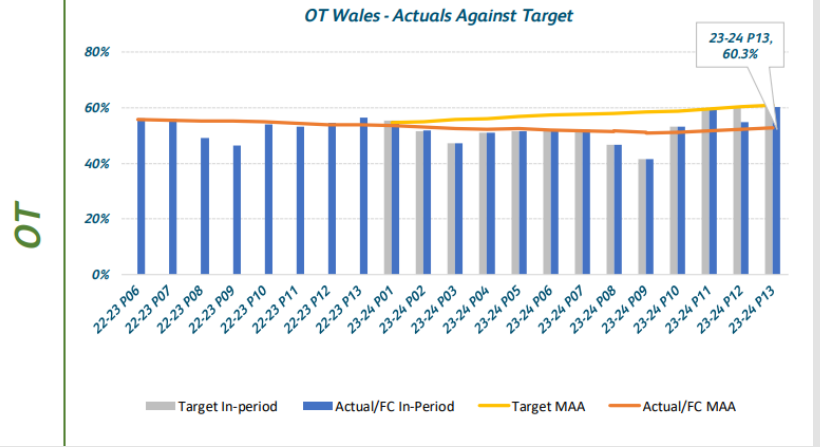

On Time to 3 (OTT3) -We track the percentage of station stops that arrive early or within three minutes of the scheduled time. A higher score on this metric indicates better punctuality.

Consistent Region Measure - Passenger (CRM-P) -This measures the delay attributed to Network Rail from incidents occurring in each Network Rail Region, per 100 train kilometres. A lower score on this metric indicates better performance.

Cancellations -We monitor the number of cancelled trains as a percentage of the total number of planned trains, which is confirmed by the train operator and Network Rail at 22:00 on the previous evening. This includes trains that miss stations or fail to reach their destination.

On Time to 3

New Trains, more trains. New 'High Performing' timetables next.....

Fleet Status 07:00hrs

Fleet	Number of Units	Availability Target	Availability Actual	Balance
150	35	24	26	2
153 (UAT)	15	12	11	-1
153 (Non-UAT)	11	9	10	1
158	24	19	22	3
Mk4	7	4	4	0
231	11	8	9	1
197/0	30	23	25	2
197/1	15	11	11	0
230	5	2	3	1
398	0	0	0	0
756	24	0	0	0
Totals	153	112	121	9

Cyfuno collaboration commitments

TRAFNIDIAETH CYMRU
TRANSPORT FOR WALES

1

Our relationship is based on collaboration, with high trust and low formality

2

We jointly challenge existing standards, processes and behaviours

3

We empower our colleagues to influence the decisions that affect our customers

4

We develop joint goals aligned with Welsh and UK Government policies

5

We jointly make the best decisions for long term multi-modal transport

6

We consider all freight and passenger operators when making decisions

7

We invite everyone across our organisations to jointly create NR/TfW strategies

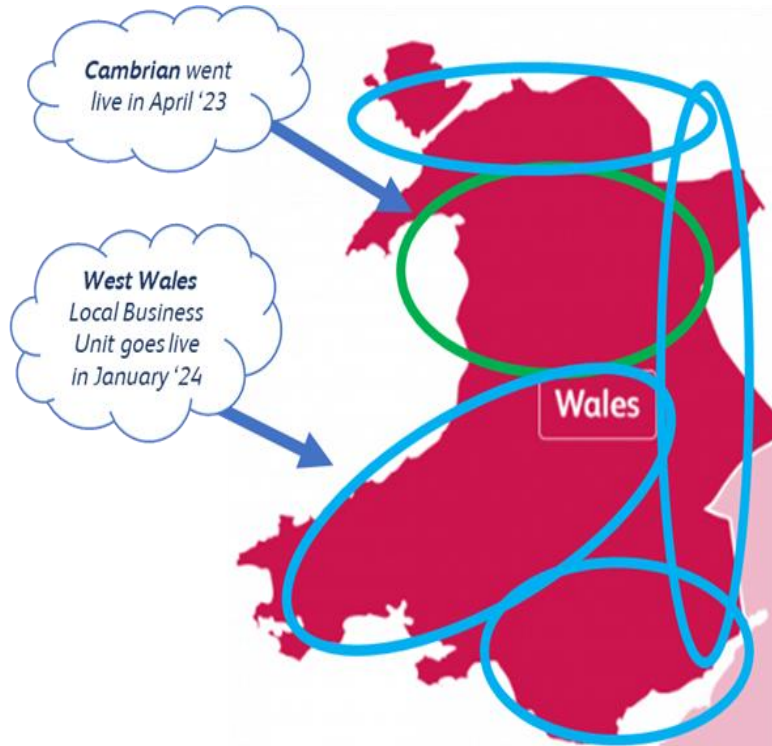

8

We respect each other's responsibility for delivering outcomes with set funding

Making it simpler and easier to develop and run a better transport network in Wales and Borders

Track and Train, together, locally.....

Achieved so far:

- **Cambrian** established (April '23)
- Swansea-Severn Tunnel (performance group established **November '23**)

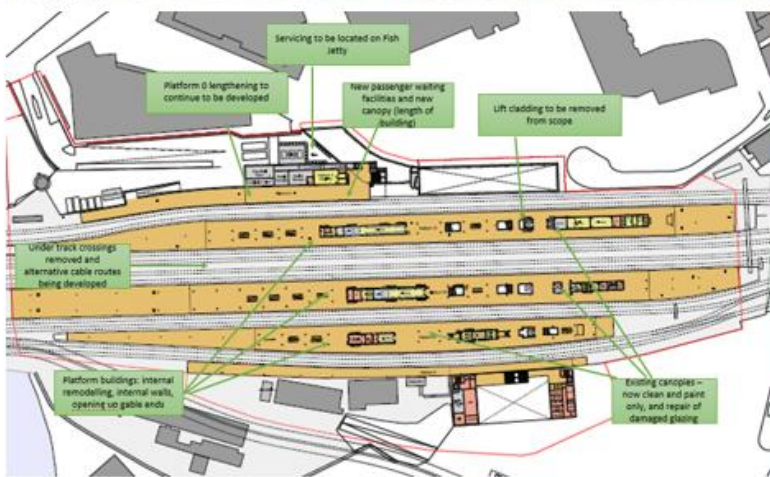

Next steps:

- **West Wales** (Kick off **January '24**)
- **North Wales** Local Business Unit (Target **April '24**)
- **Swansea to Severn Tunnel** migrates into full Local Business Unit (Target **September '24**)
- **Marches** Local Business Unit (Target **December '24**)

Cardiff – Creating a legacy.....

Visualisation

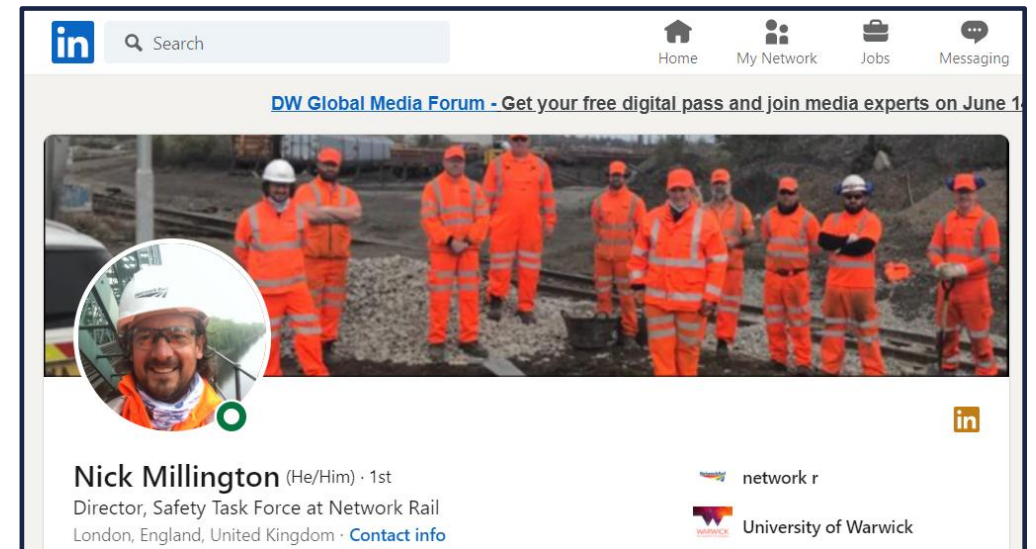

Thank you!

For everything that you are all doing safely to support the 'Wales and Borders Railway'!

[Nick Millington | LinkedIn](#)

The screenshot shows a LinkedIn post from Nick Millington. At the top, there is a navigation bar with icons for Home, My Network, Jobs, and Messaging. Below this is a search bar and a banner for the 'DW Global Media Forum'. The main content of the post is a photograph of a group of approximately ten railway workers in bright orange high-visibility clothing and white hard hats standing on a construction site. A circular profile picture of Nick Millington is overlaid on the left side of the photo. Below the photo, the post text reads: 'Nick Millington (He/Him) · 1st Director, Safety Task Force at Network Rail London, England, United Kingdom · [Contact info](#)'. In the bottom right corner of the post area, there are two logos: 'network r' and 'University of Warwick'.
